

Custom IVI Source Selection

Fictional manual showing how Audio, Sources and a proprietary LinkWave icon are used to select Bluetooth audio.

MANUAL ID	UI PROFILE	VERSION
sample-custom-ivi-v1	SampleDrive Cockpit	2026.09

How the agent uses this manual

The PDF teaches control meaning, screen transitions and success evidence. The live screenshot supplies current position. Retrieved instructions are provisional: the agent confirms every control before tapping and observes the result before continuing.

Fictional example - no production vehicle UI is represented.

Proprietary icon glossary

Each icon image is paired with a stable ID, human meaning, synonyms and the screen or action it opens.

 ICON-ID: <code>audio_hub</code> Audio Hub Opens playback and media-source controls from the Home tile grid. Synonyms: Audio, Media, Playback Opens: <code>screen.audio_hub</code> Image: <code>images/icon-audio-hub.png</code>	 ICON-ID: <code>sources</code> Sources Opens the list of available media inputs. Synonyms: Source selector, Inputs, Choose source Opens: <code>panel.audio_sources</code> Image: <code>images/icon-sources.png</code>
 ICON-ID: <code>linkwave</code> LinkWave / BT Audio This proprietary symbol represents Bluetooth audio as a media source. Synonyms: Bluetooth, BT, Wireless audio Opens: <code>action.select_bt_audio</code> Image: <code>images/icon-linkwave.png</code>	

screen.home - Home - Main tile grid

The main launcher contains large tiles. Tile positions can vary by vehicle configuration.

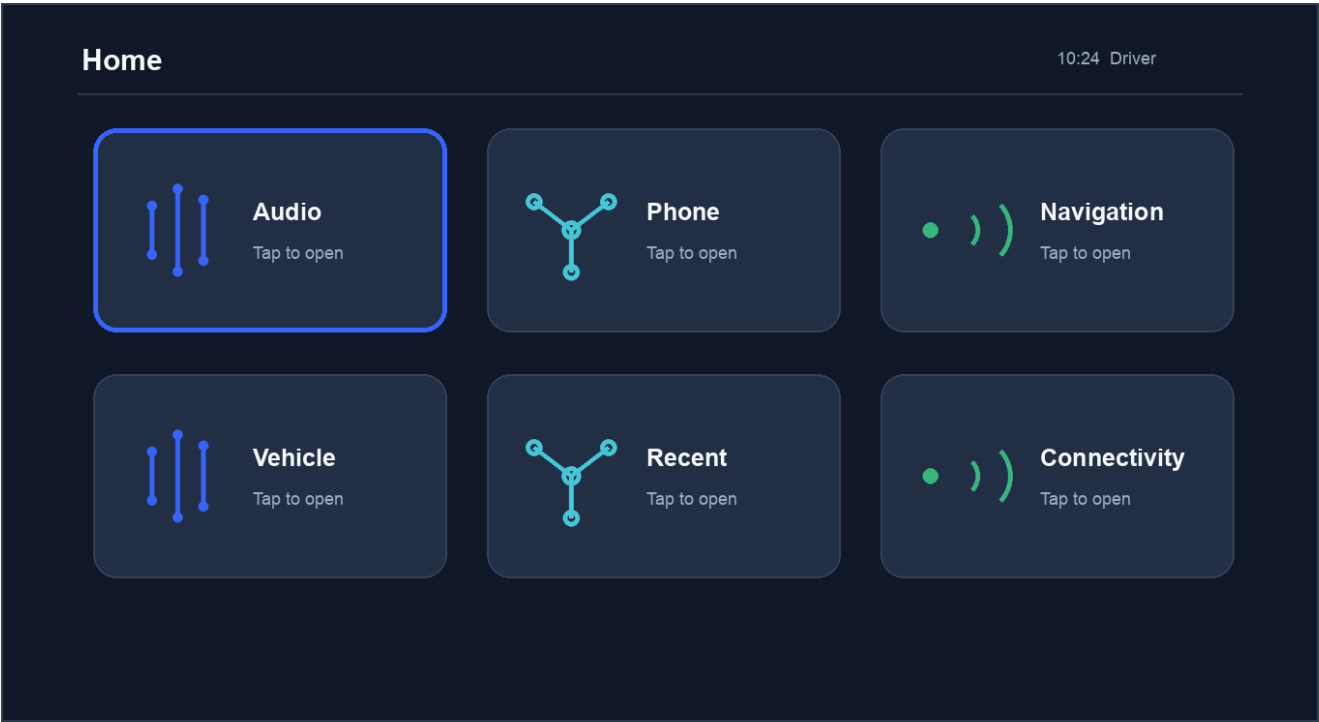

IMAGE: images/home.png

Distinctive landmarks

- Status bar at the top

screen.bt_selected - Audio Hub - BT Audio selected

BT Audio is the active source and has a visible selected indicator.

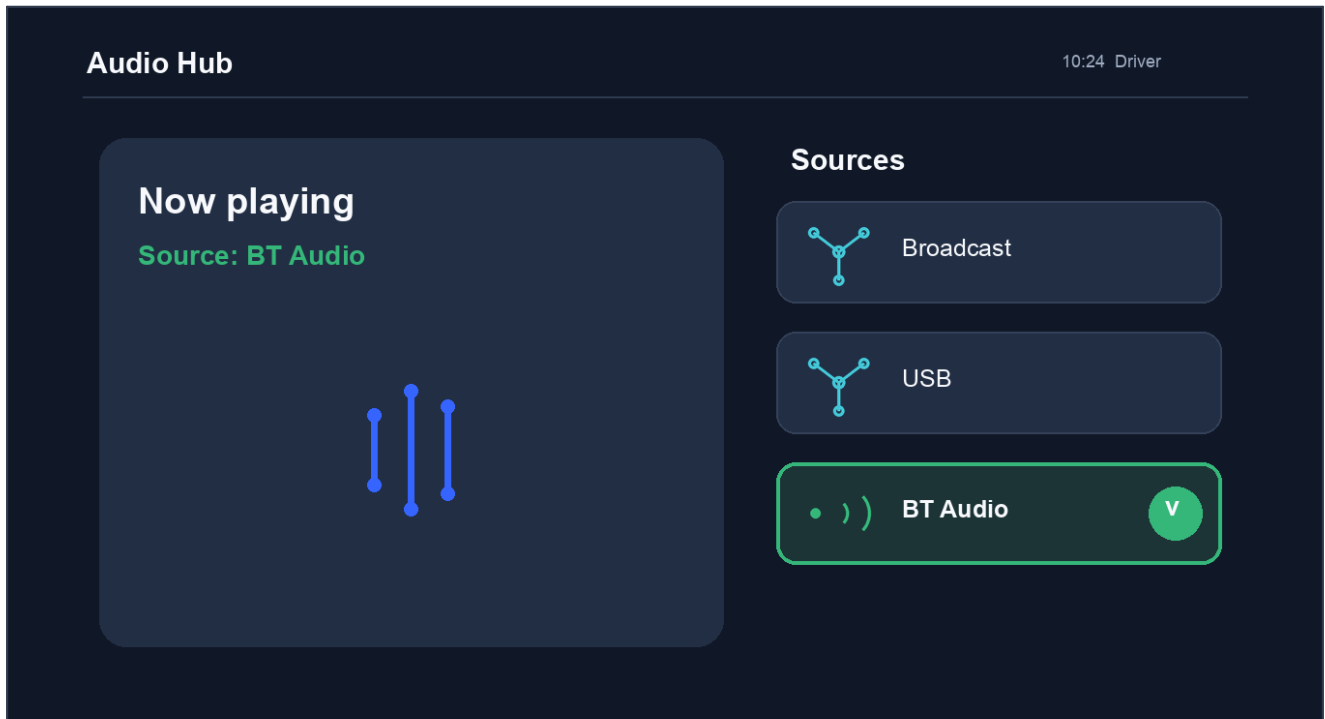

IMAGE: images/bt-selected.png

Distinctive landmarks

- Source: BT Audio
- BT Audio row
- Selected check indicator

panel.audio_sources - Audio source selector

Lists available audio sources before Bluetooth has been selected.

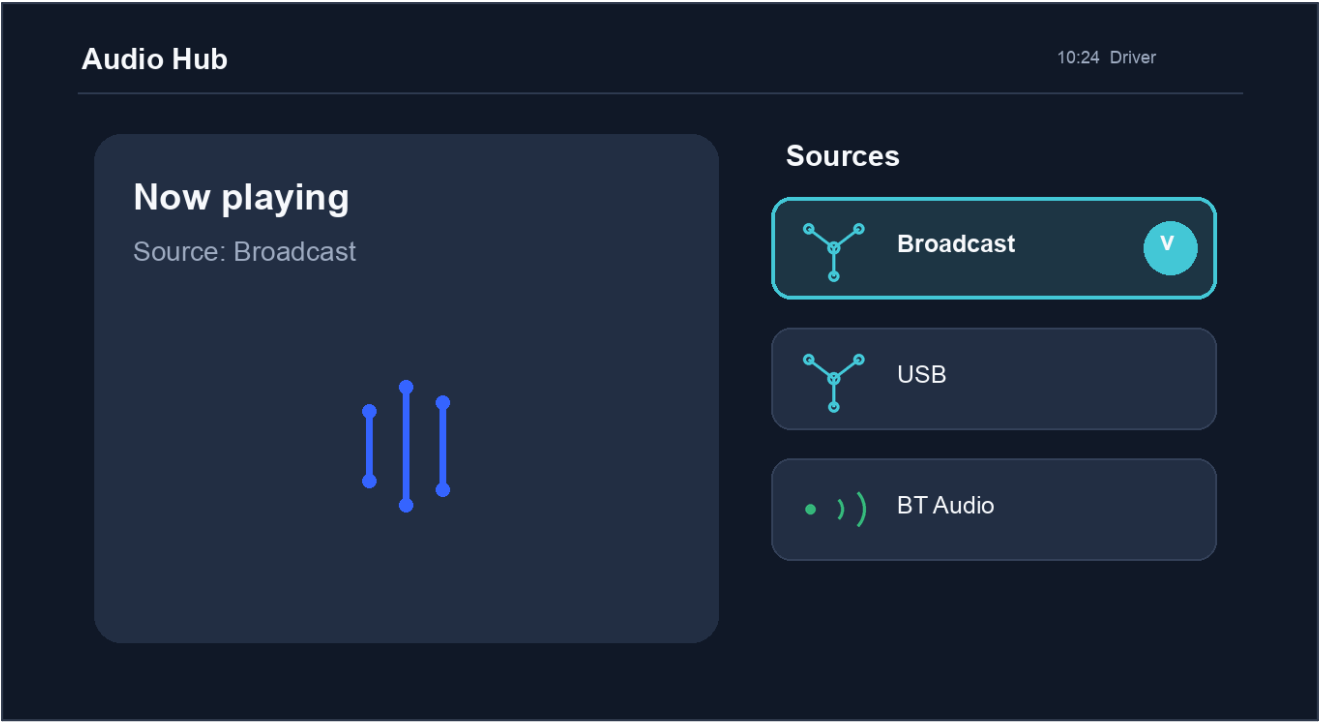

IMAGE: images/sources-open.png

Distinctive landmarks

- Sources heading
- Broadcast row is selected
- BT Audio row uses the LinkWave icon

CONTROL	ACTION	EXPECTED RESULT
BT Audio sources.bt_audio icon: linkwave	Select Bluetooth audio	screen.bt_selected

task.select_bt_source

Select Bluetooth as the media source

1	Locate the Audio tile by its label or Audio Hub icon and activate it. Screen: screen.home Target: home.audio_tile Expected: screen.audio_hub is visible
2	Locate and activate Sources. Screen: screen.audio_hub Target: audio.sources Expected: The audio source list is visible
3	Locate BT Audio by text, synonym or LinkWave icon and activate it once. Screen: panel.audio_sources Target: sources.bt_audio Expected: BT Audio becomes the selected source

PASS WHEN - Source: BT Audio is visible - BT Audio has a selected indicator	DO NOT - Do not open device pairing - Do not toggle the Bluetooth radio - Do not accept unexpected permissions
--	--
